elektra   medisoft   easypms   IDEAL

A total of 96 personnel as %80 technical staff

It has a software team specialized
in the requirements of tourism sector

Our Software Team
Our software team consists of
software engineers with more
than 10+ years of experience

Our Training and Support Team
Talya provides 7/24 support
service with 50+ people.

Why EasyPMS?

EasyPMS

All-In-One Solution

EasyPMS is the most comprehensive cloud hotel management software on the market; it is a full PMS including booking engine, channel manager, rate manager, POS, and other additional modules. It has all the features and functions your hotel may need.

EasyPMS

Cloud and Web-Based

EasyPMS is hosted by Microsoft Azure and can be used by any web browser therefore it is accessible from any computer or mobile device anywhere in the world. Compared to on-premise systems, it is much more efficient due to its on-the-go accessibility.

EasyPMS

Latest Technology

EasyPMS uses the latest technology (Google's Angular Framework, Reactive Web Programing and NodeJS) that is why it is extremely fast, efficient, and compatible with all devices and browsers.

ANGULAR | node JS | Microsoft SQL Server

www.easypms.com

EasyPMS

Cost Effective & High ROI

EasyPMS has cloud hosting and SaaS license therefore it does not need any server, expensive licenses nor any maintenance or upgrade costs. That is why it is very cost effective and has the highest ROI.

EasyPMS

5 /13

Reliable

EasyPMS is hosted in Microsoft Azure Cloud Servers that may be the most powerful and protected data centers in the world. It is backed up in more than 24 points in the world.

EasyPMS

Secure

EasyPMS uses SSL for data transfer, secure tokens for authentication mechanisms, and several AI guard algorithms for malicious attacks.

It is one of the best protected systems in the world.

EasyPMS

Easy To Use

Since EasyPMS uses Google's Material Design which has a very familiar interface, it is both user-friendly and easy to use.

EasyPMS

Mobile

It is completely responsive and fully functional on tablets and phones in addition to desktop systems.

EasyPMS

Multi Property

EasyPMS has many special functions and reports for group hotels and chains. It provides shared consolidated reports for occupancy, income, ADR, and aggregation of financial statements. It also provides shared use of information about guests, agencies, and reservations.

EasyPMS

Customizable

EasyPMS is easily customizable for any size and type of hotel due to its flexible parameters.

EasyPMS

Scalable

Since it is hosted in cloud servers, CPU power and storage capacity can be easily expanded or decreased depending on your needs.

EasyPMS

Interoperable

EasyPMS has a public API for communication with other systems, so integration to other external systems such as banks, door locks, and pay TV etc. can easily be done.

EasyPMS

Enhanced Support

EasyPMS has 24×7 online support; an expert will be with you looking at the same screen anytime you need.

EasyPMS
- You can list, sort, group, and filter all of your reservations by any criteria with a single click.

- By the help of color codes, important information becomes more visible.

- All functions are accessible with a single click after selecting a single line or multiple lines.

- All screens can be exported to Excel or to the printer in different formats.

- In the listings multiple sorting, filtering, searching, grouping are standardized.

- Thanks to its digital archiving capability, one or more documents can be stored in the related record by scanning or uploading.

- Users can view only the allowed screens and run the allowed functions depending on their authority.

TASK MANAGEMENT

Request
All requests and complaints entered get included to the automatic task management.

Task
The expected completion time is determined according to the definition of the task, the department, the authority, and the importance.

Work
The task falls to the screen of the relevant unit or mobile device. The person receiving the call starts by pressing the "start task" button and ends by pressing the "complete " button.

Control
If the task is not scheduled and/or does not end in the max time frame, the message is automatically sent to a higher authority.

- It is designed in such a way that you can perform the entire operation of the front office (Reservation, Check-in, Check-out, Folio, Blockage, Payments)
- You can access the guest's reservation card, change room and date with a drag and drop, make collections, check-in/check-out transaction entry, and go to the folio.
- You can easily drag and drop a reservation around to modify its room number or accommodation range.
- You can also see your reservations from the online channels that yet not have been assigned a room on top of the blockage screen and drag and drop them to the suitable room.
- The number of empty rooms is displayed at the bottom of the room type and the full occupancy can be seen on top of the chart.
- On this same screen, online channels can be managed and POS transactions can be processed.

EasyPMS

Connected Channels

EasyPMS has an integrated channel manager which does not only synchronize online channels (Booking, Expedis, Hotelbeds, Hotelspro etc) but also receives the reservations in the hotel. That is why it is much easier and more effective.

EasyPMS has two-way connection that is occupancy information and prices are sent to channels and reservations are received.

- EasyPMS channel manager system is very flexible. In addition to sending and receiving options, availability, discounts, and prices can be revised according to channels.

- Virtual room types can be used and virtual room type availability can be formulated based on actual room types.
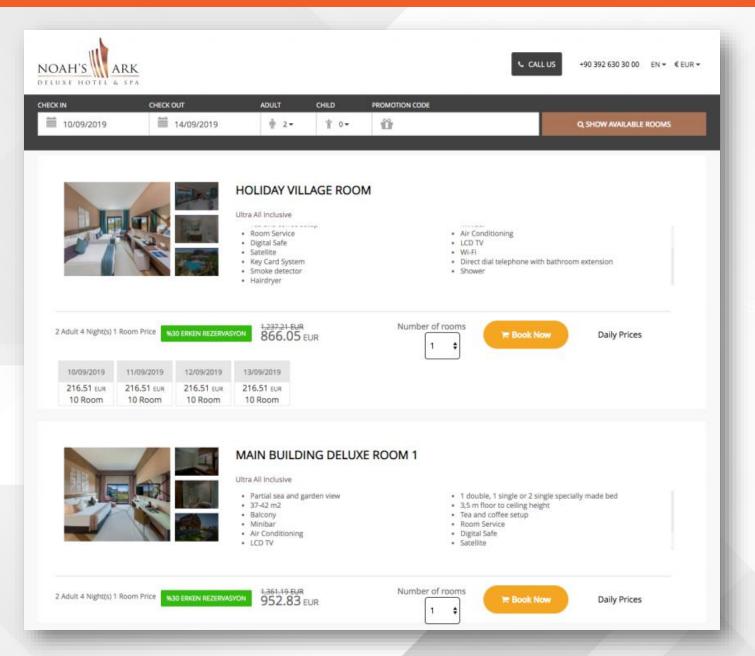

- It has an easy and fast interface.
- The view of booking page (content, colors, font, theme, back font etc.) can be customized according to the corporate identity of the hotel.
- Multiple reservations for different dates and room types can be done at once.
- It provides daily price and availability for each room along with the total price.
- It shows net prices besides showing prices and discounts separately.
- It lists all different price options for the same room such as refundable, nonrefundable, with or without breakfast.
- It is multilingual and multi currency. Daily currency rates are automatically updated.
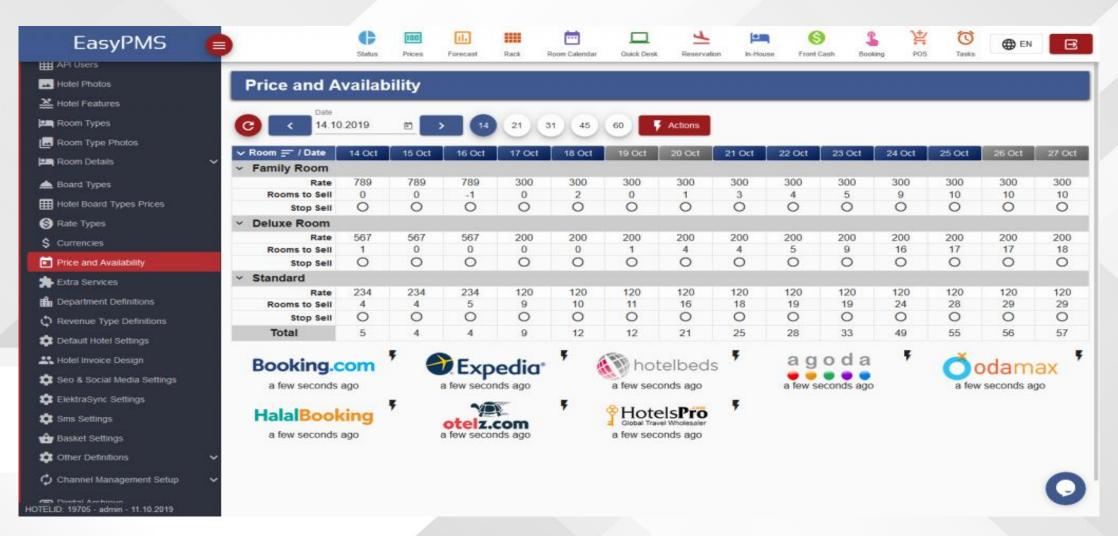

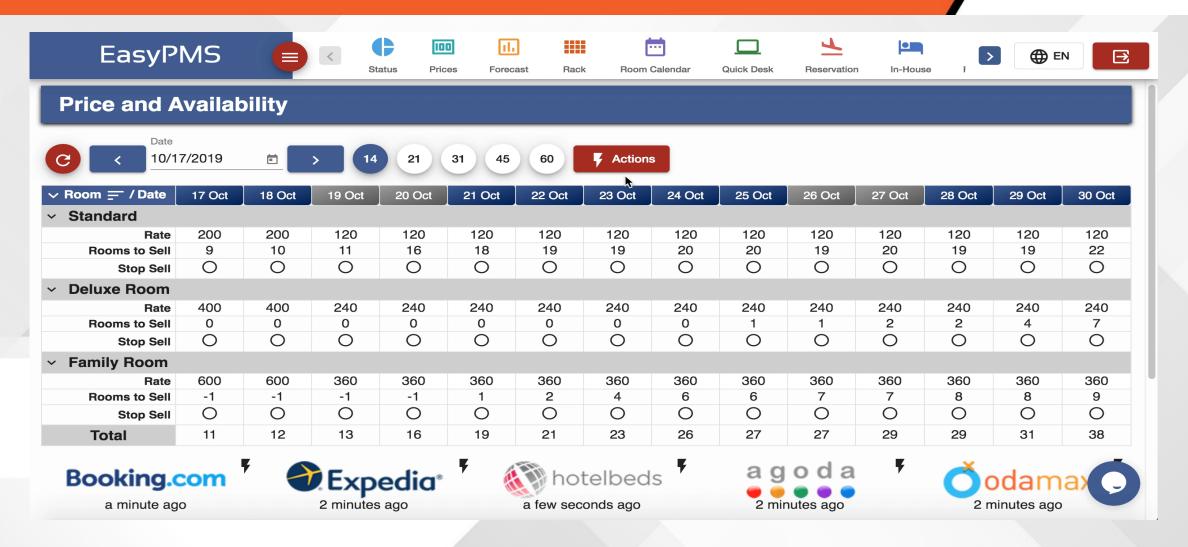

- During the reservation, customers can be monitored and contacted by online chat, they can click and talk, send call me forms.
- When a reservation is made, it sends a notification by SMS and e-mail both to the guest and the hotel.
- Different payment options such as cash, wire transfer, pay at hotel, credit card, and guarantee by credit card are provided.
- Guests can use promotion codes or previously earned bonus points.
- It is multilingual and multi currency. Daily currency rates are automatically updated.
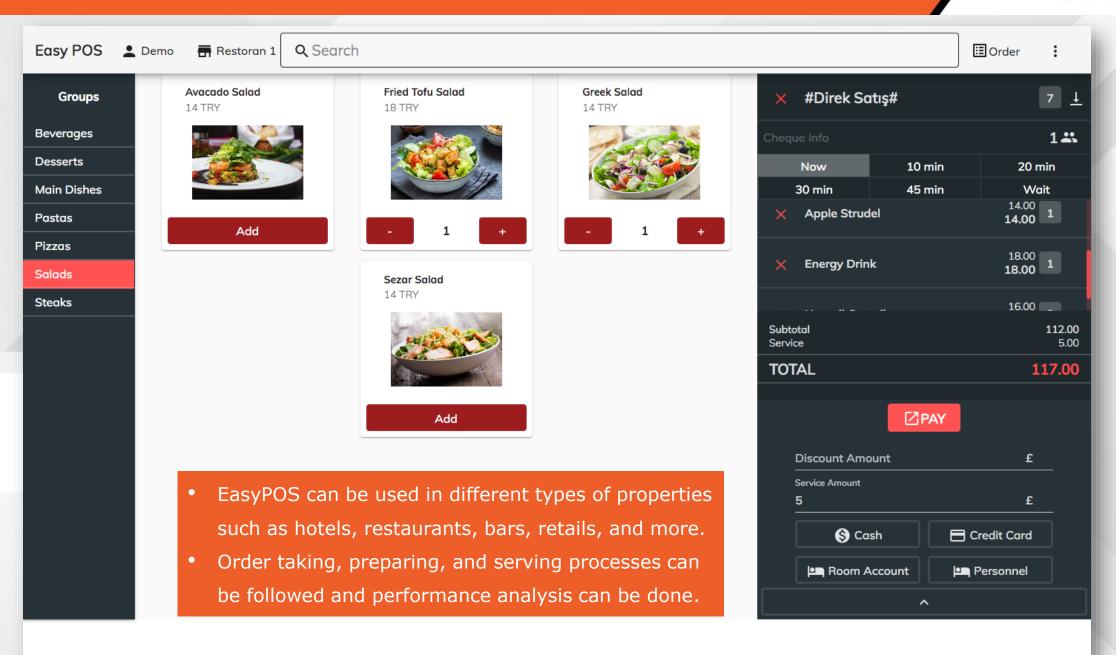

- EasyPMS Rate Manager enables the hotels analyze the prices of their competitors in all sales channels and determine the most optimum price for their hotel to maximize their profit and occupancy.
